Full Stack Developer with 2+ years of experience leading teams to develop and ship enterprise SaaS applications & lead generating, SEO-focused websites. Specialized in AI Native Development with Next.js, Angular, Nest.js, .NET Core, and management of CI/CD cloud infrastructure.

Experience

Full Stack Developer (Team Lead)

CodeSwift | Rawalpindi | February 2026 - Present

- Led a cross-functional team of 8, defining business requirements, coding guidelines, PR policies, and code reviews.
- Shipped 3 SEO-focused Next.js applications generating active leads, along with an internal enterprise SaaS platform.
- Developed .NET Core backend services for a multi-tenant enterprise EHS platform with 5 integrated web applications.
- Managed end-to-end CI/CD and deployment pipelines across cloud VPS infrastructure and Oracle Cloud production servers.

Frontend Developer

LitGrey Technologies | Remote | August 2025 - January 2026

- Built frontend features with Angular for Optician Dynamics, an optical ERP and POS for eyewear retailers.
- Refactored core POS, warehouse, and purchasing workflows to improve UX and cross-device responsiveness.
- Maintained steady delivery in a monitored RDP setup, consistently scoring 90-95% productivity on the company's time tracker.

Full Stack Developer

Fiverr | Remote | March 2025 - January 2026

- Turned client ideas into web apps with the MERN stack, Angular and Next.js; 5.0-star rating from every reviewed order.
- Fixed bugs and finished half-built JavaScript/TypeScript projects, including full-stack apps with complex logic.

Backend Developer

BixForge Solutions | Remote | March 2025 - June 2025

- Built backend services with secure authentication and RESTful API endpoints.
- Worked with UX designers, frontend developers and a product manager on a remote team.

Full-Stack Web Developer

Vocsena | Remote | September 2024 - December 2024

- Built responsive pages and complex routing in React and Tailwind CSS from Figma designs.
- Added authentication, metadata upload and database setup on a Node.js/Express backend, and documented the APIs.
